

Pennsylvania Cancer Control Consortium

PAC³ Mission

PAC³ helps volunteer individuals and organizations work together to reduce the cancer burden for all citizens of Pennsylvania by:

- Providing a forum for collaborative action
- Identifying and disseminating best practices
- Reducing cancer-related health disparities

Implementation Action Committees

Pursuing initiatives, activities and advocacy efforts across the cancer continuum that reflect goals and objectives of the Pennsylvania Comprehensive Cancer Control Plan.

Colorectal Cancer Screening Strategic Initiative

Designed to help primary care providers implement best practices to help get more individuals screened for colorectal cancer.

Cancer Resource Database

Providing comprehensive information about cancer-related programs, services, and resources available in Pennsylvania through a free, on-line database at www.pac3.org.

To learn more about PAC³ or become involved, please call (412) 623-0033, email pac3@upmc.edu, or visit www.pac3.org.
